Release 0.1.0b1

Stefan Fischer

Jun 05, 2017

Contents:

1	Examples	1
2	API	3
3	Indices and tables	5
	Python Module Index	7

CHAPTER 1

Examples

CHAPTER 2

API

This is a library for reading ARPA n-gram models.

The package may be imported directly:

```
import arpa
```

Details about the ARPA n-gram format can be found here:

- [SRILM](#)
- [ICSI Speech](#)

The library was initiated by Stefan Fischer and is developed and maintained by many others.

CHAPTER 3

Indices and tables

- `genindex`
- `modindex`
- `search`
